Bulletin G- 01-14 (previously posted)

MEMORANDUM

Date: September 30, 2014
TO: All Permit Applicants
FROM: Michael Griffin, CBO, CFM, Building Official
SUBJECT: Permitting and Licensure Requirements for low voltage (98) or less

Low voltage permits will only be issued to licensed electrical contractors, limited energy systems specialty contractors, alarm contractors or registered contractors or home owners when acting as their own contractor on their own residential property as provided under Florida Statutes.

All applications submitted involving low voltage in all commercial, industrial and residential buildings will require permits and proof of licensure.
