

Text that is blue and underlined is new- not currently in the Code.

Text that is red and ~~struck through~~ has been deleted.

OR

It had been moved to another section of the code. If it has been moved- there will be a note next to it that looks like this **[MOVED TO___]**.

Text that is black is text as it currently appears in the Code.

In some cases, the text is the same but it may have been moved to where it is from another section. If it has been moved there will be a note next to it that looks like this **[MOVED FROM___]**.

[NOTES AND EXPLANATIONS WILL LOOK LIKE THIS]
