CONGRATULATIONS

We won an Aetna® Workplace Well-being Inspiring Change Award. This is based on the evaluation of our employer well-being program. And because of what we've accomplished, we're taking home the bronze. A big thanks to everyone who participated in our well-being program. We couldn't have won this esteemed award without you. Your commitment to well-being has helped create a healthier, happier place to work.

Employee Wellness

STAND STRONG - MAINTAIN YOUR MUSCLE HEALTH

One of the most important ways to protect and support your muscles is to stretch regularly. Doing so allows you to move more easily and freely, whether you're walking, running, biking or playing a sport.

- Decrease cramping and muscle soreness
- Help your joints move through their full range of motion
- Enhance your performance in physical activities

STRETCH IT OUT

Stretching helps prepare your body for exercise and assists the recovery process. It can also help improve your joint range of motion as well as reduce stress.

Front thigh stretch

Stand next to a wall or use a chair for support. Make sure your feet are shoulder-width apart. Bend one knee so that your foot goes up toward your buttocks. Grab your ankle and pull it toward your buttocks as far as you can. Hold the stretch for 15–30 seconds.
Repeat 2–4 times for each leg.

Calf stretch

Stand and place your hands on a wall. Move one foot back as far as you can comfortably. Your toes should be facing forward, heels flat, with a bend in your knees. Lean into the stretch. You should feel the stretch in your back leg. Hold the stretch for 15–30 seconds.
Repeat 2–4 times for each leg.

Talk to your doctor about safe ways for you to stretch and keep your muscles healthy.
